-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20, 27 and 28 have been allowed.

Response to Arguments

2. Applicant's arguments filed 6/28/2007 have been fully considered but they are not persuasive.

Responding to the arguments about Group III (claim 26), the Applicant should note that the steps of the method of mounting the at least one state speaker system in claim 26 distinguish from Groups I, II, IV and V and require a different field of search.

Regarding Group II (claims 21-25) drawn to a computer controlled state speaker system that comprises the at least one multiparameter lighting unit system and computer control means, the inventions in Group II distinguish from Groups I, III, IV and V and require a different field of search.

Regarding Groups IV and V, claim 29 has the different features such as the stage lighting unit that includes a first housing having a first open end for projection of an illumination wavelength toward a first selected target, first means for adjustably fixing the first housing, a second housing and a second means for adjustably fixing being substantially similar to the first means, and claims 33-35 have at least one different claimed feature such as a heat sink element, heat radiation coating or heat radiation element on the external surface of the body unit, the rear cover unit or the shielding unit.

Art Unit: 2615

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

The Office Action of the Restrictions is made Final.

Conclusion

3. This application is in condition for allowance except for the following formal matters:

This application contains claims 21-26 and 29-35 drawn to an invention nonelected with traverse in the reply filed on 6/28/07. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to HUYEN D. LE whose telephone number is (571) 272-7502. The examiner can normally be reached on 9:30AM-6:00PM.
